White & Case SEO Mentor Program

The diversity of our lawyers is a source of strength, and the nature of our clients' needs requires collaboration across borders. We attract students who prioritize learning about different cultures, experiences, languages and viewpoints. Our mission is to continue to build upon this strength and create an environment where all who work here are encouraged, assisted and inspired to reach their potential. Our proud commitment to inclusion has made us an employer of choice worldwide.

Program description

SEO Law and White & Case are excited to launch a new mentoring program, which will match former SEOs with practicing attorneys. Former SEO Law Fellows who are currently in their 1L year of law school are eligible to apply. Qualifying fellows are matched to a White & Case lawyer for a period of seven months (November to May of 1L year).

Mentoring relationships will:

- Be professional in nature
- Help students make the transition from the academic environment to the world of work
- Provide guidance from someone not affiliated with one's law school, and/or former SEO employer
- Offer an opportunity for professional development, networking and an exchange of ideas between experienced professionals and the next generation of leaders

As a White & Case mentee, you will be required to work with your mentor to create a professional development plan to get the most out of the mentor/mentee relationship. You will speak with your mentor at least once a month to achieve your professional development goals.

Selection process

The selection process is highly competitive, and a successful candidate will possess:

- Strong academic credentials**
- Excellent verbal and written communication skills**
- Leadership abilities**
- A demonstrated commitment to professional growth and pursuing a global career in an international law firm**
