## Please state to what extent you agree or disagree with the following statements:

- (a) Climate change and weather risk are material factors in your business choosing to invest in Asia-Pacific.
- (b) Threatened or actual sanctions and trade war developments will negativey impact the level of investment in infrastructure in Asia-Pacific.
- (c) A significant number of renewable energy projects in Asia-Pacific reaching financial close in 2020-2021 will have a positive influence on other infrastructure investments across the region.
- (d) A generally low capital cost of renewable energy projects compared to social and transport infrastructure makes it a relatively more attractive asset class in emerging Asian economies (excluding China and India).
- (e) Public-private partnerships (PPPs) will be the preferred methodology for emerging Asia-Pacific economies (excluding China and India) to deliver infrastructure (excluding energy) projects over the next year.
